

Command History Window

Command History Window Keys:

| | |
|------------------------------------|----------------------------------------------------------|
| PgUp or PgDn | (from the command line) Open the command history window. |
| UpArrow ⬅ | Scroll the display up one line. |
| DownArrow ⬇ | Scroll the display down one line. |
| LeftArrow ⬅ | Scroll the display left 4 columns. |
| RightArrow ➡ | Scroll the display right 4 columns. |
| PgUp | (inside the window) Scroll the display up one page. |
| PgDn | (inside the window) Scroll the display down one page. |
| Ctrl-PgUp or Home | Go to the beginning of the history list. |
| Ctrl-PgDn or End | Go to the end of the history list. |
| Ctrl-D | Delete the selected line from the history list. |
| Enter | Execute the selected line. |
| Ctrl-Enter | Move the selected line to the command line for editing. |

You can view the command history in a scrollable command history window, and select the command to modify or re-execute from those displayed in the window. To activate the command history window press **PgUp** or **PgDn** at the command line. A window will appear in the upper right corner of the screen, with the command you most recently executed marked with a highlight. (If you just finished re-executing a command from the history, then the next command in sequence will be highlighted.)

The display is not circular as it is at the prompt; it has a fixed beginning and end. The **Ctrl-D** (delete from history) key works within the history window as it does at the command line.

Once you have selected a command in the history window, press **Enter** to execute it immediately, or **Ctrl-Enter** to move the line to the prompt for editing (you cannot edit the line directly in the history window).

You can bring up a “filtered” history window by typing some characters on the command line, then pressing **PgUp** or **PgDn**. Only those commands matching the typed characters will be displayed in the window.

See [Popup Windows](#) for information on customizing window position, size, and color.
